Dutch Bulbs at their Best

Grown, Harvested, Graded, Stored and Marketed Under the Personal Supervision of Members of the Van Bourgondien Family

Ours is the largest concern in Holland growing Dutch Bulbs and marketing them direct to American flower lovers. From the time the bulbs are planted until they are shipped to you postpaid, we control the factors which govern quality. Every step is supervised by a member of our firm.

It is our purpose to render a personalized service to American home owners and flower lovers. The men shown at the left have devoted their entire lives to bulb growing. In fact, the growing of the fine bulbs is a family tradition, backed by generations of experience.

Infinite care and close personal attention to details are required to produce the super-quality Top-Size Bulbs listed in this catalog. No other concern is so well equipped to deliver Dutch Bulbs of such absolutely dependable quality.

The bulbs quoted in this catalog are all Top-Size. This is the largest size the market affords, often called "Exhibition Size." With such bulbs you can actually duplicate in your own garden the huge blooms seen at flower shows.

Our Dutch Bulbs are grown in our own fertile fields at Hillegom, Holland, under the personal supervision of a member of our firm. Every step in harvesting, grading and shipping is likewise personally supervised.

There are certain varieties of bulbs, such as Narcissus, which can be grown to perfection on Long Island. These we produce at our extensive nurseries at Babylon.

Remember, bulbs of the quality we offer are seldom offered at any price by local dealers or mail order houses. Indeed, only 40 per cent of our own crop measures up to the standard set for bulbs to be marketed under the Van Bourdondien label. You get only the cream of our crop, yet our prices are no higher than you would pay for bulbs of uncertain origin and inferior quality.

Points to Remember—Please Read Carefully

PREPAID SHIPMENTS. We prepay all carrying charges to destination on orders accompanied by payment in full.

C. O. D. SHIPMENTS. We will book your order on receipt of 25 per cent of the amount of the order; the planting material will be shipped C. O. D. including transportation charges.

MINIMUM ORDERS. We cannot fill orders below \$1.00. Also please omit orders for less than six of a variety unless a price on each is quoted. Six or more of a variety are sold at the dozen rate;

twenty-five or more of one variety at the hundred rate; two hundred fifty or more of one variety at the thousand rate.

ORDER BLANKS are enclosed for your convenience.

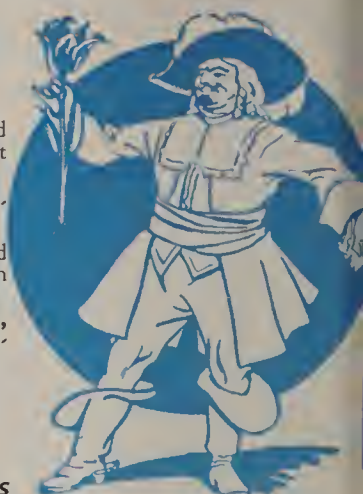

EXTRA CATALOGS. We will gladly send copies of this catalog to any of your friends upon receipt of their addresses.

We will include in every shipment free of charge, our own most explicit Cultural Directions for indoor as well as outdoor culture.

Giant Darwin Tulips

MAY-FLOWERING

THE Giant Darwins have made a place for themselves in the hearts and gardens of American flower lovers. This popularity has been won through sheer merit. Darwins are most brilliant in colors and of great size, borne on tall, erect stems. Darwins will give you a most gorgeous show. Plant them in beds, in the border or among shrubbery.

Triumph Tulips

TRIUMPH TULIPS are a distinct race, unlike any other group. They were originated many years ago by Mr. Zocher, in Holland. As a hobby, he hybridized Darwin Tulips with Single Early Tulips and originated this new strain.

Triumph Tulips have the habits of the Darwins with the new color combinations which are not to be found in the Darwin Tulips. We especially recommend Elizabeth Evers, John D. Rockefeller, Red Flame, Rijnland, Tosca, Snowdrift, Aviateur, Eros, Red Rose, Avondzon and Papaver.

Cottage Tulips

MAY-FLOWERING

THESE lovely Tulips are descendants of the attractive varieties originated in Holland during the Tulip boom of the 17th century. They spread throughout England and France where they were treasured in simple cottage gardens. Finally, they were rediscovered by the Dutch and taken back to Holland.

Through careful hybridizing and the selection of suitable soil, the modern varieties have been greatly improved. All imaginable colors are now represented in this class. The flowers have long stems and very graceful shapes, freer and more informal than the Darwins and Breeders. They are unsurpassed for the garden and ideal for cutting, blending nicely into mixed bouquets.

The Majestic Breeder Tulips

NEXT to the Darwins, the most popular class of Tulips. In our judgment, they far exceed the Darwins in size of flower, length and strength of stem and general beauty. Breeders are noted for their soft pastel shades, exquisitely artistic, also for their lasting qualities. They are magnificent in the garden and for cut flowers where imposing formal effects are desired.

Excellent for slow forcing. Give the Breeders a prominent place in your planting program.

Intimate Glimpses of Our Nurseries at Hillegom, Holland

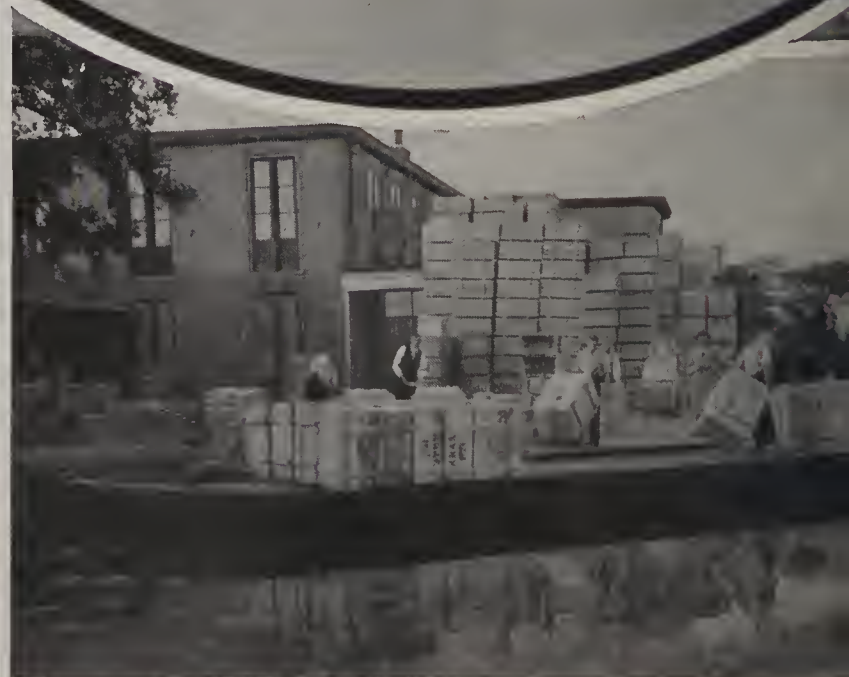

Here you see far-stretching fields of magnificent Tulips and Hyacinths, all on our own rich alluvial Holland land. Other views show our harvesting and packing crews busy with the bulbs we grow. In several of these views, Mr. Peter C. Van Bourgondien is seen, personally directing the work.

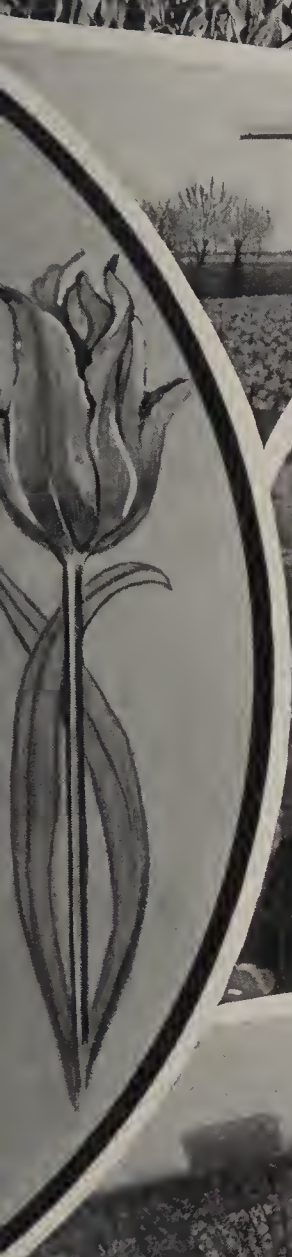

Complete Control of Quality

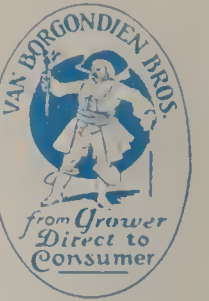

We are the largest concern growing Dutch Bulbs and shipping them direct to American home owners. Every step of producing, harvesting, grading and storing is personally supervised by a member of our firm. Only the cream of the crop is offered to the retail trade. About 40 per cent of our crop grades "Top-Size," and is considered worthy to bear the Van Bourgondien Bros. label. The remainder of the crop is sold through wholesale channels.

We offer you in this catalog the very choicest Dutch Bulbs that we can produce at prices no higher than you would pay elsewhere for bulbs of inferior quality.

Narcissus or Daffodils

YELLOW TRUMPET varieties have trumpets which as a rule are longer or as long as the perianth segments (petals). They usually have a light or deep yellow perianth with a trumpet of deeper yellow.

BICOLOR varieties have creamy or pure white perianth segments and yellow trumpets.

BARRI varieties have light or deep yellow perianth segments and an expanded crown instead of a trumpet, which is light or deep with red or orange edge.

INCOMPARABILIS varieties have light or deep yellow segments, a crown of light or deep yellow very similar to a short trumpet.

LEEDSI varieties always have white segments, while the crowns are white or light yellow. They are very dainty.

POETICUS. Snow-white segments, crowns usually heavily rimmed orange or scarlet with a green eye in center of crown.

POETAZ. Cluster-flowered in white, light or deep yellow. Some varieties have orange or red-rimmed small crowns.

JONQUILS. Usually bear small flowers in small or large clusters on one stem, and usually are sweet scented.

Daffodils for NATURALIZING

Hundreds of thousands of Daffodils are used yearly for this purpose, because when once planted they continue without any care to give you immeasurable joy year after year.

Numerous varieties have proved very successful for this purpose and we will use no others. Practically all types of Daffodils contain some varieties suitable for this purpose, thereby increasing the number of varieties and adding greatly to the desire of naturalizing Daffodils.

Only sizes which are most desirable for naturalizing without continuous care are selected for your favorite garden spot, "the natural garden." Only varieties having proved to be hardy are selected for this purpose.

Practically any soil has been found suitable, but when planted under and among trees and in woodlands, the leaves of the trees should not be removed, as taking away this natural food will not only injure your trees but also will prevent the Daffodils from producing as they should.

Plant at least 8 inches deep but avoid places where water may collect at any time as they like drainage.

Try to plant them before October 15th or shortly thereafter. Place your order early as the demand is increasing for these bulbs at the special low prices we have adopted. We cannot take orders for less than 50 bulbs.

French Bulbs

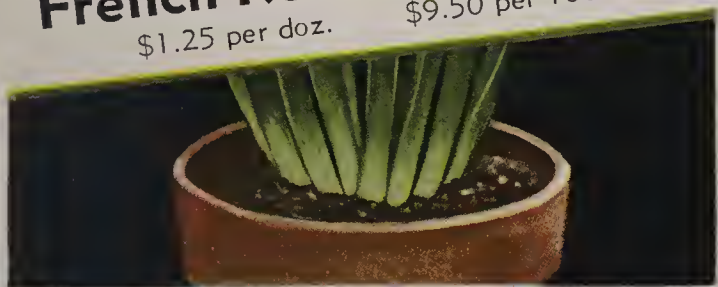

**American
Grown**

for INDOOR CULTURE

The Narcissi named below are grown in the United States and will be available for shipment early in September. We can ship them then or later as you may desire. For early winter flowers, it is desirable to start them as soon as possible. Follow the directions given with each variety, and you will have an abundance of dainty, attractive flowers in early winter. These are the earliest flowering bulbs we offer. For a succession of bloom, start a new lot every two weeks.

Candidum or Madonna Lily
30c each \$3.00 per doz.

Paper-White Narcissus

Suitable for Growing in Water
and Gravel, Sand or Fiber.

We handle only the **Giant Grandiflora** variety, which is a great improvement over the ordinary Paper-White Narcissus. It can be had in bloom from Christmas until Easter, either in pots, bowls or boxes. Upon arrival, plant them immediately, if wanted early, and put in a cool place in cellar or pit, free from frost. When well rooted they can be taken into heat, and if watered freely they will produce an abundance of beautiful blooms. They are not hardy.

Jumbo or Exhibition Size, 80c per doz.; \$6.00 per 100; \$58.00 per 1000.

French Roman Hyacinths

French Roman Hyacinths are among the earliest bulbs to be had in flower. The bulbs arrive from France late in August, and, like all bulbs grown in the south of France, they may be had in flower from November all through the winter months, if potted up in September and at intervals of every two weeks. They are much prized for pots or cutting on account of their graceful appearance and delicate fragrance.

Jumbo Bulbs. 13 to 15 cms., \$1.25 per doz.; \$9.50 per 100; \$90.00 per 1000.

Lilium Candidum

This is the exquisite Madonna Lily, which produces a large mass of snow-white flowers on straight stems. Plant these bulbs in the open in September or October, and protect them well from frost, as they are not extremely hardy, and during May or June you will have an abundance of flowers. Can also be planted in pots and by putting them in a cold frame for three months, well protected, then taking them into a greenhouse, the same success will be yours.

Jumbo bulbs only, 30c each; \$3.00 per doz.; \$22.00 per 100.

Soleil d'Or Narcissus

Soleil d'Or resembles the Paper-White Narcissus very much in habit, but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We expect to have some very fine stock of this variety to meet the steadily increased demand of the past few seasons. Do not forget to order a few and get acquainted with this wonderful flower.

We offer only the Exhibition Size: \$1.35 per doz.; \$10.00 per 100; \$90.00 per 1000.

Special Bedding Hyacinths

The Hyacinths selected for this purpose excel in vigor as well as size of truss, the so-called Un-named Bedding Hyacinths, as these are selected and are consequently very superior. Plant 8 inches apart and with at least 4 inches of soil on top of the bulb. Give them the same treatment as other Hyacinths.

Bulbs measure $6\frac{1}{4}$ to 7 inches in circumference.

Prices: Per doz., \$1.15; per 100, \$9.00.

Dutch Roman Hyacinths

These are the Hyacinths used for growing in bulb pans, or planted outside in the garden will give satisfaction. They are apparently small bulbs, but in comparison to their size they produce immense flowers. On account of their low price and splendid results, they are very much in demand for house culture or planted in the garden. By planting only one kind in a pan, the best results can be obtained, as then they produce an even growth. By following the same cultural directions as given for the Hyacinths, failure is impossible. They are also greatly used for bedding.

Hyacinth Bulbs Grown in Our Own Holland Nurseries

Personal Supervision Assures Quality

On pages 16 and 17 of this catalog, we show some of our fields of Hyacinths growing at our Nurseries, Hillegom, Holland. These receive the same expert care as do our fields of Tulips.

After harvesting, they are carefully graded. The very largest are graded as Exhibition Hyacinths. These are for special display where it is desired to have flowers of great size, each a perfect specimen.

The next grade, our Special Bedding Hyacinths, are as large as the best grade offered by many houses. They are from the same fields as the Exhibition Hyacinths, and differ only in the size of the bulbs.

We are not absentee growers. A member of our firm goes right into the field with the working crews. He supervises the planting, growing and harvesting. Then he follows the bulbs into the warehouse. He makes sure that they are properly cured and accurately graded.

Last year, he loaded the cream of the crop on a Dutch steamer and personally accompanied the bulbs to the port of New York. Nothing was left to chance or to those who have no special interest in the bulbs.

No other house of comparable size exercises such complete control over the bulbs from the time the stock is planted in our Holland Nurseries until they are shipped to you postpaid.

COLLECTION No. 24

Last but not least, the earliest of all spring arrivals when the snow is not quite off the ground, they show their heads in defiance of past winter and when left undisturbed they will do so year after year, in sun, shade or partial shade, under bushes, trees or in your rock garden.

Miniature Bulbs for the Rock Garden

Fritillaria Meleagris

Singular, dwarf, spring flowering plants, bearing large, pendent, bell-shaped flowers of various colors, in yellow, white, black, purple, striped and splashed, and checkered in the most curious way. They are invaluable for pot culture, and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation.

MIXED. Select mixtures. 50c per doz.; \$3.50 per 100; \$32.00 per 1000.

Chionodoxa

(Glory-of-the-Snow)

An early flowering spring bulb for borders or rockery. Produces flower spikes bearing 10 to 15 scilla-like flowers. Perfectly hardy and should be planted close together for effect.

LUCILIAE. Deep blue, with a white center. Selected mother bulbs, 30c per doz.; \$2.25 per 100; \$20.00 per 1000.

SARDENSIS. Deep blue. 35c per doz.; \$2.50 per 100; \$23.00 per 1000.

Scilla Campanulata

All the varieties of Scilla Campanulata are splendid for naturalizing because they will flower in shady places. All have bells like small hyacinths, forming long, graceful spikes.

CAMPANULATA ALBA MAXIMA. Large, pure white. 45c per doz.; \$3.25 per 100.

BLUE QUEEN. Large, bright blue. 45c per doz.; \$3.25 per 100.

ROSE QUEEN. Soft lilac-rose. 45c per doz.; \$3.25 per 100.

Eranthis Hyemalis

(Winter Aconite)

Early in spring the golden blossoms look charming, resting on an emerald-green cushion of leaves and forming a striking contrast to the Snowdrops, Scillas and Chionodoxas. The foliage remains long after the flowers, making the plants especially valuable in moist situations, such as under trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 45c per doz.; \$3.00 per 100; \$28.00 per 1000.

Muscari

(Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of an entirely different form—grapelike clusters closely set—and are wonderful cut flowers. Always exquisite when naturalized.

ALBA. White. 50c per doz.; \$3.75 per 100; \$35.00 per 1000.

BLUE BIRD. An immense improvement over all other varieties; the flowers being twice as large and growing taller, and of a delightful heavenly blue. 70c per doz.; \$5.00 per 100.

HEAVENLY BLUE. 40c per doz.; \$3.00 per 100; \$27.00 per 1000.

PLUMOSUM (Plume Hyacinth). Flowering in May. Beautiful feathery plumes violet-blue. Height 8 inches. We strongly recommend this variety for your garden. Very unusual type of Muscari. 60c per doz.; \$4.50 per 100.

Scilla Sibirica

Scilla sibirica naturalize splendidly, are cheap and so can be planted liberally.

SIBIRICA, BLUE. 50c per doz.; \$3.75 per 100; \$35.00 per 1000.

SIBIRICA, SKY BLUE. A trifle lighter blue than the former with large flowers of a most beautiful heavenly blue color. 70c per doz.; \$5.00 per 100; \$48.00 per 1000.

Snowdrops

(Galanthus)

Everybody knows the Snowdrops: with their little white bells coming through the snow; practically the first flower to show itself after the dreariness of winter. It is a wonderful bulb for naturalizing and for every garden.

NIVALIS (Single). 40c per doz.; \$3.00 per 100; \$23.00 per 1000.

NIVALIS. (Double). 50c per doz.; \$3.50 per 100; \$32.00 per 1000.

PEONIES

The Rival of the Rose

The old-fashioned early flowering Peony with its deep pink color is still holding its own against the modern high priced Peony. In spite of all competition there are no Peonies more popular than this fine old Officialis variety. We ship only large, vigorous clumps.

DEEP PINK
Per clump, 75c.

Mertensia Virginica

(Virginia Blue Bells)

A beautiful hardy perennial that should be planted with Daffodils for contrast. The flower buds are pink, opening into lovely dainty flowers of porcelain-blue, borne in nodding clusters. This beautiful spring flower starts blooming along with Daffodils and lingers to frolic with the May-Flowering Tulips. Delightful in the open border or along woody paths.

Japanese Iris

GARDEN ORCHIDS

(35c per clump
3 for \$1.00
12 for \$3.50)

Japanese Iris are increasing in popularity as garden lovers realize their many advantages. They bloom in late June and early July, long after the German (Tall Bearded) Iris are gone. The unique flat-topped flowers are of enormous size.

They form masses of gorgeous color and are extremely useful for cutting. Japanese Iris will make a splendid background for your Lily pool.

Unless otherwise requested, we will ship the roots in September, which we regard as the ideal time for planting Japanese and other Iris. This enables them to become well established before freezing weather.

BASHU-NO-TEN. Double. Gray, veined with blue.

BETTY JEAN CHILDS. Single. White, faintly splashed and veined Phlox-purple or the new beautiful shade of orchid; petaloids deeper shade.

BLUE DANUBE. Double. Light blue shaded darker. Bright orange center.

BOKHARA. Single. Phlox-purple, yellow blotch in center, edged blue. Wavy petals.

CAPRICE. Single. Sometimes a solid lavender-blue. More often striped and mottled.

CHUTSAI. Single. Hortense-violet veined white. Inner petals Phlox-purple.

DAISY HARRINGTON. Single. Pinkish blue, veined purple.

ECLAIR. Double. White, veined blue; throat amber.

ETHEL J. MARSHALL. Single. Ivory-white splashed and veined dull violet-blue, petaloids aconite-violet edged white, stigmas ivory-white and splashed with violet cast.

FANNY HAMLET CHILDS. Double. Violet mottled and splashed white.

FRANCIS E. CLEVELAND. Semi-double. Blue; very large.

GOLD BOUND. Double. Pure white.

ISPAHAN. Double. Phlox-purple veined white.

MARGARET. Double. Beautiful sky-blue; purple falls.

MARJORIE PARRY. Double. Delicate light mauve; tufted center. Extra fine.

PAINTED LADY. Single. White, center blotched light Phlox-purple, tufts white, with Phlox-purple edge.

RED RIDING HOOD. Single. Fine amaranth veined and suffused white.

REPSIME. Double. Blue, veined white.

TAIHERAKU. Double. Rich vinous purple with conspicuous yellow blotches tipped blue, radiating out into purple veins and feathers, petaloid stigmas gray and lavender.

T. S. WARE. Double. Reddish violet veined white. Center white, marked lemon.

Novelty Japanese Iris

75c per clump, 4 clumps for \$2.75

BETTY F. HOLMES. New, pure white double. Compared to Gold Bound, the flowers are larger with lemon-yellow midrib instead of orange-yellow. The foliage is a deeper green and more graceful. A distinct improvement over Gold Bound.

BLUE GIANT. Semi-double. Immense size. Golden base surrounded by blue, shading to violet and purple. One of the best.

KHA KHAN. Single. White suffused with blue. Purple stigmas. Extra large and fine.

ELBRUS. Double. We consider this the best of all the clear lavenders. The flower is exceptionally large, 6-petaled, and in color is a beautiful clear lavender, almost azure-blue. Plant of vigorous growth, moderately tall, strong, graceful foliage.

Beautify Your Garden with these Novelties

Iris Reticulata

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Spanish or Dutch Iris. Its main value lies in the fact that it may be forced into bloom in the house with the greatest ease. Six bulbs put into a 4-inch pot when received will bloom Christmas time. The fragrant blossoms remind one of a bunch of fresh violets. Hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rock garden. \$1.75 per doz.; \$11.00 per 100.

Camassia

Perfectly hardy bulbous plants that bloom in June, producing flower-spikes 2 to 4 feet high, bearing many star-shaped flowers, measuring 1½ to 2 inches across. Bulbs should be planted 4 to 5 inches deep.

ESCULENTA. A native of the Mississippi Valley, 1½ to 2 feet high, with spikes of lovely purple, starry flowers. Very showy in mass planting. 60c per doz.; \$4.50 per 100.

CUSICKI. Under good cultivation, grows to the height of 4 feet. Tall spikes of pale lavender, starry flowers with yellow anthers. \$1.75 per doz.; \$14.00 per 100.

Leucojum Vernum

Spring Snowflake

This pretty bulbous plant is similar to the Snowdrop but of larger, stronger, and more attractive habit. In rich soil it grows to a height of 8 inches and produces, in late April, beautiful large white flowers, tipped with green, that are excellent for cutting. 70c per doz.; \$5.50 per 100; \$50.00 per 1000.

LEUCOJUM

HELLEBORUS NIGER

Helleborus Niger

(The Christmas Rose)

Large flowers of purest white, often flushed with rose, rising above masses of dark leaves. 10 to 12 inches high. These exquisite blooms are produced from late November through the winter. Best in sheltered, half-shady position. For best results fertilize liberally with well-rotted cow manure and leafmold dressing. Strong plants, \$1.25 each; \$11.00 per doz.

Fritillaria Imperialis

(Crown Imperial)

This unique and most attractive flower derives most of its name from the crown-shaped flower, as shown in the illustration. The original species grew wild in English meadows, and the present form is excellent for naturalizing as well as for the garden or border. It blooms in May and June. Children admire the pearly drops of nectar found in the chalice.

For best results, the bulbs should be planted during September.

ORANGE. 35c each; \$3.50 per doz.

RED. 35c each; \$3.50 per doz.

YELLOW. 75c each; \$7.50 per doz.

Crocus

New Strain, Giant Flowering

Last year, we offered our customers a new race of Giant Crocus which we called the IDEAL CROCUS. While we have not increased the price over that formerly asked for the older strains, we can truthfully say that our customers now receive double value. Plant them this year, you will marvel at the flowers early next spring.

These new Crocus are so far superior in size and beauty we feel sure that the older strains will disappear from the market as soon as the Ideal Crocus can be produced in sufficient quantities. The bulbs offered here are Top Size, grown in our own Holland Nurseries. Even the Mixed Collections are made up of named varieties.

AGNES. Deep lavender.

AMETHYST. Porcelain-blue, glancing lilac; extra.

CHARLOTTE PATTI. Lilac striped.

GIANT YELLOW.

GLADSTONE. Deep purple; extra large.

KATHLEEN PARLOW. Pure white.

MARGOT. Striped.

MASTERPIECE. Dark purple.

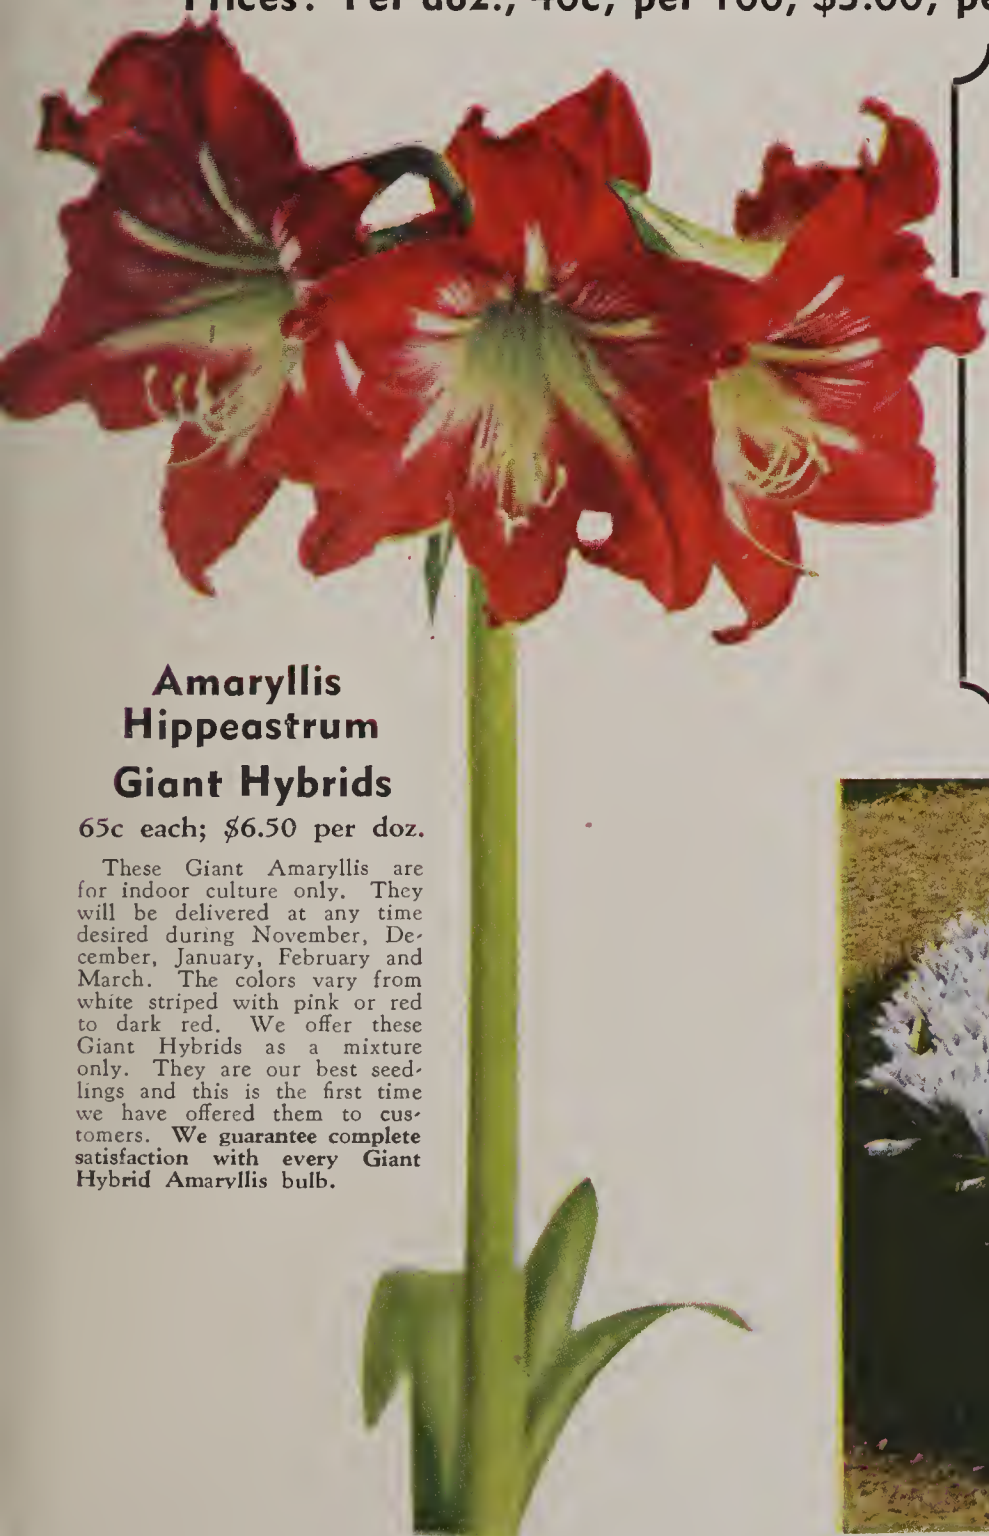

REMEMBRANCE. Sky-blue, rich flowering.

SNOWSTORM. Pure white.

STRIPED BEAUTY. Dark striped.

VERICOLOR (Cloth of Silver). White, silver striped.
